Try something out of the ordinary in Aobayama Park' s Sendai Ryokusaikan!

Aobayama Park is known for its rich nature – so much so that it' s hard to believe it' s just a few kilometers from central Sendai.

View this beautiful and historical park from above, witnessing the harmony of the vivid greens and murmuring of the Hirose River.

You can take a commemorative photo inside the hot balloon as it' s inflating. Experience the size and power of a balloon up close and capture a unique and special moment on camera.

Aobayama Park is not often windy in the evening, so the conditions for hot air balloon flights are usually favorable.

If you are really lucky with the weather, you can see all of Sendai lit up at night.
